The FIM Europe has established the FIM Europe Trial European Championship, the FIM Europe Junior Trial Cup and the FIM Europe Over-40 Trial Cup.

The European Championship is open to riders of at least 16 years of age at the date of the event.

The FIM Europe Junior Trial Cup is open to riders of at least **15** years of age at the date of the event and who are under, or reach, 23 years during the current year. **NB Riders under the age of 16 years at the date of the event are restricted to motorcycles not exceeding 125cc (a +2cc is allowed as a tolerance on capacity).**

The FIM Europe Over- 40 Trial Cup is open to riders of over 40 years of age at the date of the event.

Each event also includes two International Classes. International Class I is open to riders turning 24 years of age during the current year or older. They will compete in the same section route as the Junior Cup. International Class II is open for riders from 16 to 39 years of age at the day of the event. They will compete on the same section route as the Over 40 Cup. There is no final classification for the international classes.

All classes are open to riders from other CONUs.

Each event includes:

- Technical and Administrative controls.
- The Trial
- Prize-giving ceremonies

TL 01.1.1 FIM Europe Standards for Organisers

It is the responsibility of the FMNR to ensure that the starting area, the riders' paddock, the sections and the course and the other installations fulfil the demands stated in the [Compulsory Standards for Organisers](#).

Each FMNR shall appoint a person to ensure that all Standards for Organisers and requirements of the Environment Code are respected throughout the event and also ensure that the Organiser is fully conversant with these Rules.

The Jury President will inform the FIM Europe of any violation of the FIM Europe compulsory standards for organisers; the FIM Europe may then impose a sanction on the FMNR.

TL 01.1.2 Meeting with the Organisers

Two days before the competition, a meeting will take place between the organisers and the Jury President. This meeting must include the following persons:

- the Jury President
- the Clerk of the Course
- the Secretary of the event
- the person appointed by the FMNR as detailed in TL 01.1.1
- the person responsible for the Sections.

Other persons who the Jury President or the Organiser feels appropriate may attend.

TL 01.2 JURISDICTION

An International Jury composed of a Jury President appointed by the FIM Europe, a Jury Member appointed by the FMNR will supervise the event. A third jury member may be appointed among the licensed delegates or a present member of the FIM Europe Trial Commission. If no other person with a sporting steward license is present at the event, the Jury President will have a casting vote in the case of a tie (FIM Europe Sporting Code art 50.1).

A Jury Member can not take part as an Assistant (FIM Europe Sporting Code art 40.3).

Any FMN with a rider competing in the event may send a delegate with a sporting steward license to attend all open meetings of the Jury. The Jury Delegate can report any observations to the Clerk of the Course or at the open Jury meetings. The Jury Delegate has no jurisdiction and must not discuss any concerns directly with observers or other officials.

TL 01.3 COURSE

The route should be in one direction only. If, in exceptional circumstances, two-way traffic is unavoidable, then special safety measures must be taken, e.g. separating the track or positioning of officials.

It must be possible for the riders to complete the course (from the paddock to all sections and back) without the use of public roads (unless closed for general traffic with permission from the authorities and guarded by police or officials).

To be classified as a finisher the rider alone shall ride or push the machine for the entire distance of the Course, unless the organisers have authorised other assistance or authorised deviation.

TL 01.3.1 Distance

The length of the course for each lap shall not exceed 20 km.
The Trial shall consist of 2 laps.

TL 01.3.2 Course marking

The course shall be marked with direction arrows as shown below:

Within the square marked ? shall be written the number of the section to which the arrow directs the riders. All arrows must be made of waterproof material.

During the event the marked route must be strictly followed. A rider who leaves the route must, under penalty of disqualification, regain the course at the point where it was left.

The course shall be marked the day before the event and the riders will be allowed to follow it by motorcycle under their own responsibility during the scheduled inspection of the sections (see TL 01.7.1).

For safety reasons, there shall wherever possible, be a route marked for spectators, which is different to that marked for the riders. If spectators riding motorcycles are allowed to follow the course, this must be mentioned in the Supplementary Regulations, and necessary safety measures must be taken to avoid conflicts between competitors and spectators riding motorcycles.

TL 01.4 SECTIONS

The number of sections shall be 15 per lap.

Different lines within the sections, shall be provided as appropriate for riders of the Championship, the Junior Cup, the Over 40 Cup and the International Class I and II (see 01.4.2).

For each class the sections must be designed so that at least 1/3 are of an easy, medium and difficult level. Each section shall be completely independent of other sections.

Sections constructed predominantly with industrially processed elements or materials should be avoided and can eventually be abandoned by the jury.

Each section must be clearly numbered in consecutive order, and the rider must, under penalty of 10 points, attempt the sections in numerical order. Each section shall have signs clearly identifying the location of both the "Section Begins" and "Section Ends". The Sections must be numbered at the time of the Rider's inspection.

A machine is considered as being in a section when the front wheel spindle has passed the "section begins" sign and until the time when the front wheel spindle passes the "section ends" sign.

Where it is found necessary to abandon any section owing to "force majeure" before all riders have passed through, no penalties shall be incurred in this section by any rider. If there are riders in the queue for this section, then the queue should be formed in the same order at the next section. The total time for the event shall not be modified in the event of any section being abandoned during the Trial.

If any section proves during the first lap to be impossible for all riders (all 5 points) that section shall not be modified for the next lap but may be abandoned at the conclusion of the lap. The penalties incurred by any rider in the section shall be included in that rider's total penalty points for the event.

TL 01.4.1 Section Corridor

A corridor shall be provided at the entrance to each section and it shall be controlled by a responsible Official.

This corridor shall allow at least two riders to sit in a queue with their machines when they are ready and prepared to attempt the section.

The rider will be penalized by 5 additional points for contravention of the following:

- Leaving the machine in this corridor.
- The Assistant entering the corridor.
- Receiving any outside assistance to the machine in this corridor

TL 01.4.2 Section Boundaries

The sections shall be bounded by natural obstacles and strong, easily visible

waterproof tape, securely fastened to stakes or trees.

The stakes must be securely fixed to the ground and be spaced close enough to each other to prevent major movement of the tapes. The tape must be at a minimum height of 10 cm above the ground and below a maximum height 30 cm. The actual width of the section defined between the tapes shall be at least 200 cm.

When a tape is used as an external limit of a section or as an internal separation within a section, then the following shall apply. Breaking the tape or passing over a tape so that a wheel touches the ground on the opposite side shall be considered as a failure.

The actual width of the section may be reduced by the use of "gates" indicated by markers, as shown below, with the minimum width between these markers being 120 cm.

Riders must travel only between the "gates" for their Class. A rider who passes between the "gates" of another Class – in whatever direction irrespective of if used that day – will be classed as a failure i.e. 5 points.

If any tape or any marker or stake is broken or moved then it must be replaced before the passage of the next rider. The Clerk of the Course must ensure that there is an adequate reserve supply of tape and markers available at each section.

01.4.2.1: Color codes in the sections

The Arrows within the gates shall be colored **red** for the Championship Class, **blue** for the Junior Cup and International I and **yellow** for the Over 40 Cup and International II.

TL 01.4.3 Observation Enclosure

Only officials, the riders, the assistants and the press are allowed within the limits of this enclosure. The enclosure must be of sufficient dimensions to allow the passage and work of officials, assistants and the press.

TL 01.5 TIME ALLOWANCE AND CONTROL

TL 01.5.1 Time measurement

In order to carry out the duties, the time control official shall be in possession of an instrument which registers to the tolerance allowed.

A reserve chronometer which registers to the tolerance allowed shall be at the disposal of the time control official.

Riders must accept any type of timekeeping system approved by the Jury.

TL 01.5.2 Individual Time Allowance

The time allowance for each rider to travel from the start to the lap time control on the first lap subject to TL 01.5.2.1 shall be 3:00h.

The overall time allowance for each rider to travel from the start to the lap time control on the second lap subject to TL 01.5.2.1 shall be 5:00h.

Irrespective of the actual time a rider starts, the scheduled time for all finishing times will be retained. Time penalties for late starting or late arrival at any other time controls are given in TL 01.10.1.

TL 01.5.2.1 Increase in Individual Time Allowance

The Jury may increase the rider's time allowance by up to a total of 30 minutes. In such a case all riders must be informed of this alteration before the start.

TL 01.5.3 Starting Time and Control

The Organiser must fix the starting time so that the last rider is able to start no later than 11am. The Start Time Control shall be at the starting place with the riders starting from a platform.

TL 01.5.4 Lap Time Control

The lap time control, clearly marked and well visible, shall be located immediately after the final section. Riders will remain subject to the restrictions on repairs and replacements of parts until the machine is released by the organiser at the finish point (see [TL 01.9.4](#)).

To travel from the lap time control to the finish point each rider may be allocated a set period of time. This time allowance will be set by the Jury and displayed on a notice board at the lap time control. Any rider who exceeds this allowance shall be liable to a fine penalty of Euro 50.- + 5 points.

During the visit of the Section the rider must wear the riding bib and only the rider is allowed within the Section Boundaries.
If any person with an interest in the performance of the rider enters a section without authorization, the rider shall be penalised with a fine of EUR 200.—.

Riders entering for the Championship class shall always be given priority of entry followed by the riders in the Junior Cup and then the Over-40 Class. No entries shall be accepted after the closing date for receipt of entries as stated in the Supplementary Regulations. In case of a rider entry not being received by the closing date of entries due to administrative problems, the Jury President must satisfy himself that the rider concerned is fully licensed and authorised to compete. In such circumstances, the Jury President decision shall be final.

The entry of a particular make of motorcycle and nomination of a rider having been accepted cannot be changed unless application in writing is made to the Clerk of the Course, giving the reason and permission obtained.

The rider will sign an agreement certifying that the parts have been properly marked.

TL 01.9.6 Checking of parts

Any rider whose machine does not carry the marked parts will not be allowed to start.

The organiser may examine any machine at any time during the event. If any marking is missing, the official will inform the Clerk of the Course who will examine the case and submit a report to the International Jury on the action taken.
